

For Immediate Release

NEST TO LAUNCH NEW WEBSITE

On February 10, go to www.nisgaaworks.ca for the latest info on jobs, training, and information for prospective employers

Gitaxt'aamiks, BC, February 1, 2016, - The Nisga'a Employment, Skills & Training (NEST) department is pleased to announce the launch of www.nisgaaworks.ca scheduled for February 10, 2016!

With a job-matching portal, calendar of upcoming training opportunities and seminars, links to valuable resources, and more, www.nisgaaworks.ca is an engine for your employment success!

We encourage all Nisga'a citizens to visit our site to access employment opportunities from proponents who work closely with the Nisga'a Nation. They can also access resources and information about training, employment readiness, and important life skills.

Those outside the Nisga'a Nation will find information about how to partner with NEST; prospective employers will see the readiness of the Nisga'a labour pool as they prepare their work-force plans for their businesses, projects or contracts; training and apprenticeship organizations will see how we build partnerships for mutual benefit.

Visit www.nisgaaworks.ca on February 10, 2016 to learn how NEST can start working for you!

Please visit our booth at the All Native Tournament in Prince Rupert Feb 9-13, 2016
