

CPR & Automated External Defibrillator Course

The WWNI is looking for people interested in taking the CPRC-AED course. This course targets people who have a duty to respond to medical emergencies in a pre-hospital care environment as well as the general public. This group may include workplace first aiders, ski patrollers, police and other first responders, lifeguards, community health workers, coaches and others whose job requires them to perform CPR on adults, children and/or infants within the community or workplace.

- Course will be offered at the WWNI in Gitwinksihlkw
- Cost of course is \$69 per person

Date:

December 05, 2014
