Oolichan harvest being prepared to process T'ilx (Oolichan Grease) at Dirty Dozen Fishery Bay Camp operated by Sim'oogit Gwiix Maaw - Johnny Robinson and Crew

President's Message

I hope everyone has enjoyed the arrival of the saak (oolichan) and the rich bounty of foods that K'alii-aksim Lisims will continue to provide us throughout our season of harvest.

March has been incredibly busy, and we are proud to announce that the Nisga'a Nation reached another historic milestone with our activities respecting Nasoga Gulf.

The Nisga'a Nation has been working with the Province of British Columbia to conclude the transfer of approximately 22,000 ha of Provincial Crown upland (called "Nasoga Gulf Upland") in fee simple, and a long term lease over the foreshore and submerged lands at Nasoga Gulf. It is anticipated that once the Nasoga Gulf Upland is transferred to the Nisga'a Nation, those lands will be added to Nisga'a Lands pursuant to paragraph 11 of the Lands Chapter of the Nisga'a Final Agreement. You will read more about this historic agreement in the notice included in this newsletter. Both our Executive and the Wilp Si'ayuukhl Nisga'a (WSN), our highest lawmaking authority, expressed their unanimous support for this agreement.

March has also been budget season for the Nisga'a Nation. I would like to commend the Nisga'a Finance Committee, all finance staff, the NLG Executive and Wilp Si'ayuukhl Nisga'a for their hard work in successfully completing the provisional budget process for fiscal 2016-2017. The Nisga'a Nation's provisional budget was passed by Wilp Si'ayuukhl Nisga'a on March 30, 2016.

March 14-16, 2016 was the occasion for yet another historic milestone as we hosted the BC

Assembly of First Nations (AFN) Special Chief's Assembly. It was the first such annual meeting hosted in an aboriginal community in BC. We had chiefs from all across BC and were honoured to have BC Regional Chief Shane Gottfriedson and the National Chief for the AFN Perry Bellegarde in

attendance. I wish to thank the Nisga'a Village of Laxgalts'ap and the Nisga'a Nation for very successfully hosting this large gathering on Nisga'a Lands.

In 1969, our intrepid Nisga'a leaders under then President Frank Calder reached out to First Nations leaders across BC seeking their support in the Calder Case. They were turned down by almost all First Nations in the province who asked, 'Why would we get on a sinking ship?'

On March 16, at the BC AFN Special Chief's Assembly, Grand Chief Ed John apologized to the Nisga'a Nation on behalf of his predecessors for their lack of support to the Nisga'a Nation when our leaders took the Nisga'a Nation's claim to the Supreme Court of Canada in the Calder Case. I, along with other elected members of WSN and other simgigat and sigidimhaanak' present, stood before Grand Chief Ed John and the First Nations Leadership Council to accept the apology. It is now a part of our history and we will continue to move forward.

The foresight of our leaders and the careful negotiation of our treaty allows us to determine our own destiny. In a recent article in the Prince George Citizen Premier Christy described the Nisga'a Treaty as the 'gold standard' for treaties in British Columbia.

Certainly, the number of Aboriginal groups that make the journey to visit us from across Canada and from around the world is a testament to the Premier's observation. We were honoured to have the In-Shuck-Ch First Nation visit us during the WSN to observe Nisga'a government in action, as they prepare for the forthcoming effective date of their own Treaty. We wish them every success as they move forward.

As a Nation we have always held ourselves to a higher standard. As your government, your leaders in the NLG Executive and WSN carefully

consider all important decisions that are made in the best interest of the Nisga'a Nation. In the approaching months, all of us must prepare for opportunities that are on our doorstep. In addition to the regular reporting at the Special Assembly of the Nisga'a Nation in May, you will also hear of many exciting opportunities before us.

In closing, I wish to congratulate and welcome the new Regular and Alternate members of the Council of Elders that were sworn in for a two-year term at the NLG Executive on March 24.

Notice Regarding the Potential Acquisition of Lands in the Vicinity of Nasoga Gulf and Mylor Peninsula

March 30, 2016

The Nisga'a Nation has been working with the Province of British Columbia to conclude the transfer of approximately 22,000 ha of Provincial Crown upland (called "Nasoga Gulf Upland") in fee simple, and a long term lease over the foreshore and submerged lands at Nasoga Gulf. Maps depicting the Nasoga Gulf Upland and the Nasoga Gulf foreshore and submerged lands are attached to this notice.

It is anticipated that once the Nasoga Gulf Upland is transferred to the Nisga'a Nation, those lands will be added to Nisga'a Lands pursuant to paragraph 11 of the Lands Chapter of the Nisga'a Final Agreement.

Pursuant to the October 2014 agreement with Prince Rupert Gas Transmission Ltd. ("PRGT") which allows PRGT to build a natural gas pipeline through the Nass Area and Nisga'a Lands, the Nisga'a Nation has an option to secure capacity

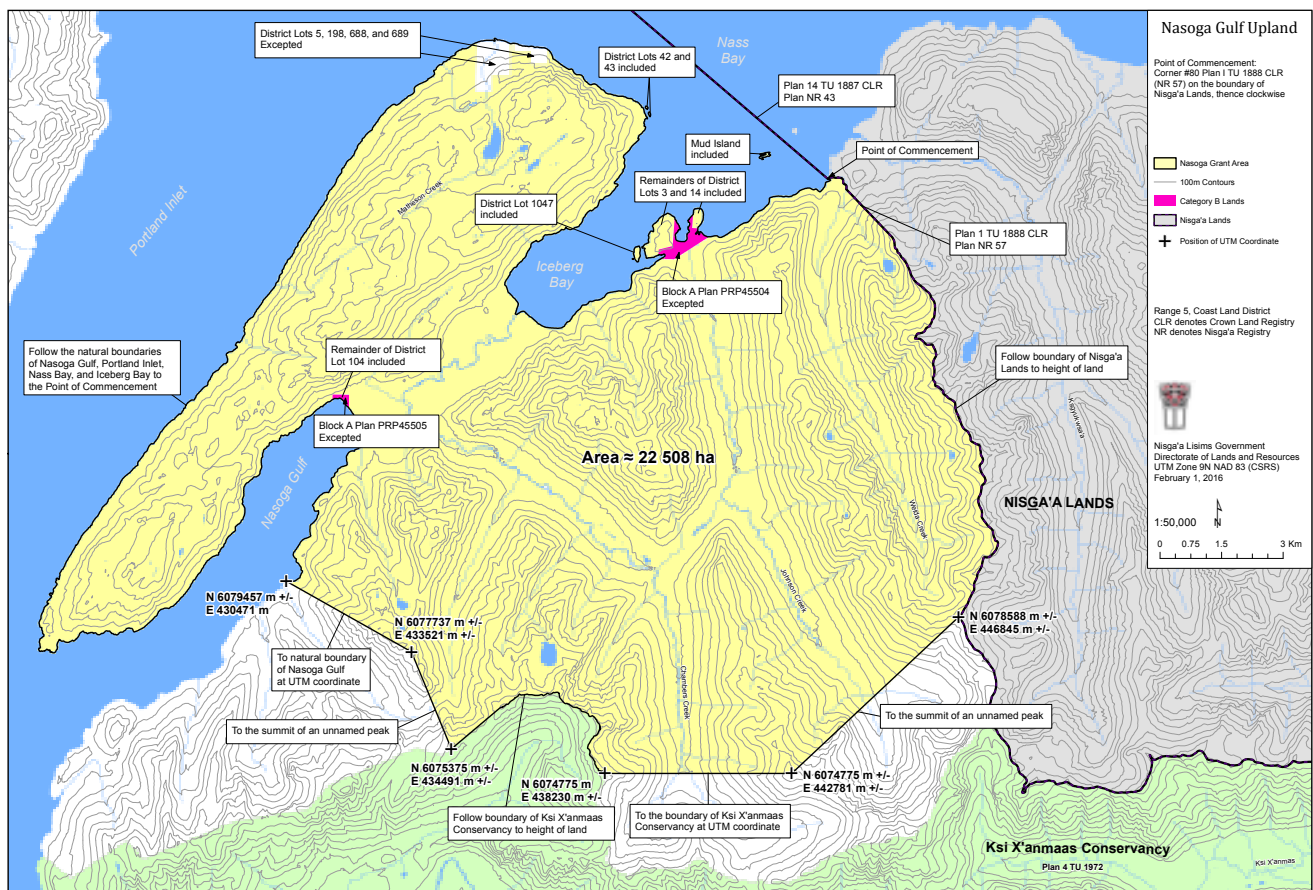

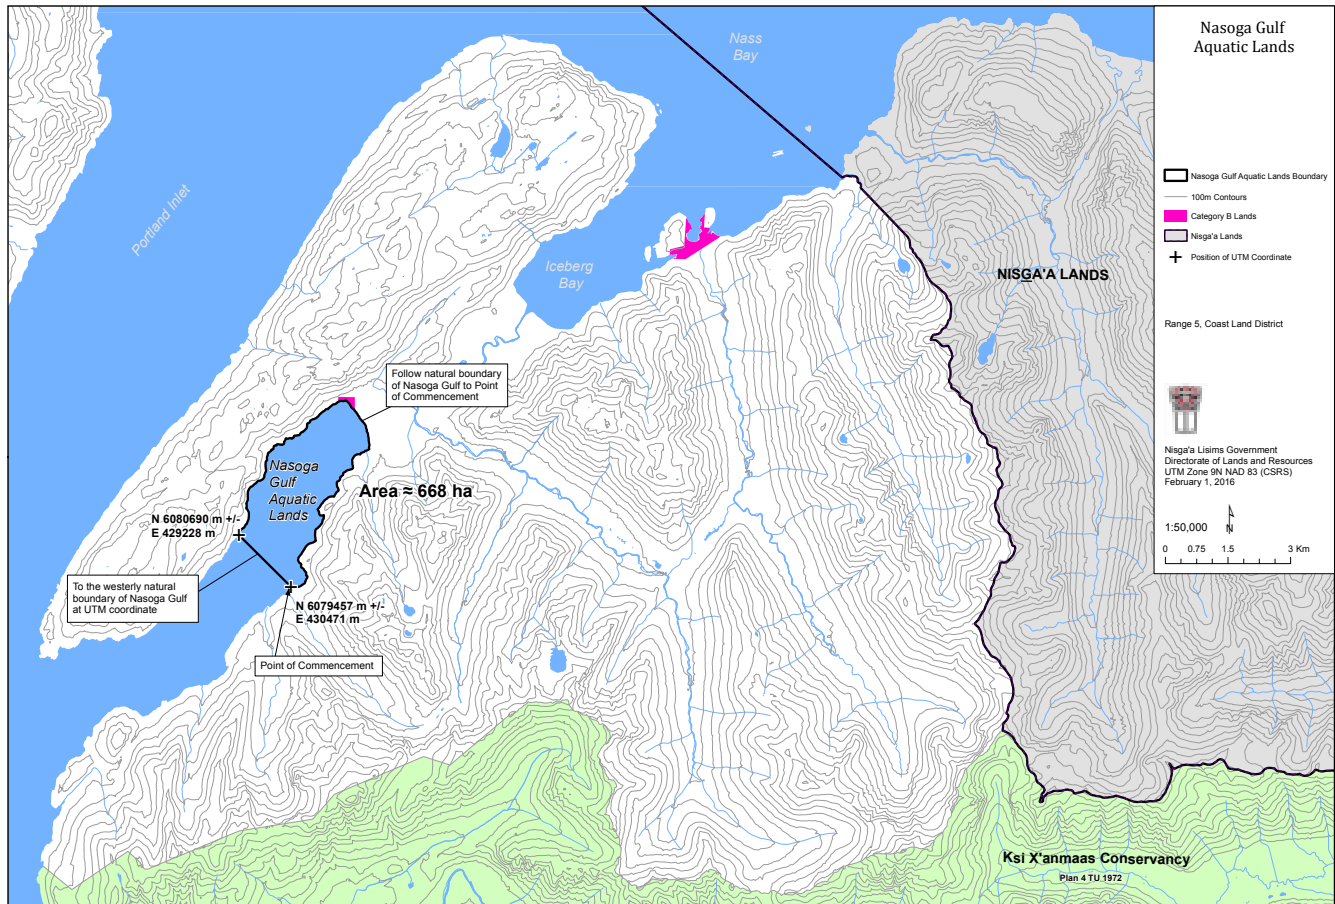

in the proposed PRGT pipeline for use by an LNG developer. Since that time the Nisga'a Nation has been actively pursuing opportunities for LNG development in the vicinity of Nasoga Gulf.

Although no project is proposed for this location at this time, the area may eventually be developed and may include LNG or other infrastructure development. Nisga'a citizens will, of course, be informed as these opportunities progress.

The Chief Executive Officer of Nisga'a Lisims Government will be reporting further on this proposed transaction during the scheduled WSN sitting at the end of March.

Discussions in respect of this proposed transfer will continue and the Province will soon begin consultation discussions with Lax Kw'alaams First Nation, Metlakatla First Nation, Kitsumkalum First Nation and Kitselas First Nation.

Nisga'a Nation hosts BC AFN 13th Special Chief's Assembly

It was an event of historic proportion as the Nisga'a Nation hosted the BC Assembly of First Nations 13th Special Chief's Assembly in the Nisga'a Village of Laxgalts'ap on March 14, 15 & 16, 2016.

March 14th consisted of a Cultural Day celebration to formally welcome BC AFN Regional Chief Shane Gottfriedson, Chiefs, Proxies and other delegates and dignitaries including NDP MLA for Vancouver-Mount Pleasant Melanie Mark. Ms. Mark received a very warm welcome from fellow Nisga'a in attendance.

Cultural Day festivities included lively cultural song and dance performances by Gitlaxt'aamiks Ceremonial Dancers, Gingolx Cultural Dancers, Laxgalts'ap Cultural Dancers and the Khast'an Drummers from the Lheidlii T'enneh Nation. The day was then rounded up with a traditional feast-style dinner with Nisga'a Stew on the menu.

March 15th was day 1 of the BC AFN's business agenda. Highlights of the day included a lunch hour presentation from the Chief and Council of the Laxgalts'ap Village Government, who presented Nisga'a Citizen Melanie Mark with gifts to commemorate her recent achievements in becoming the first Aboriginal woman elected as MLA in the British Columbia legislature. Following LVG's presentation, AFN National Chief Perry Bellegarde, BC AFN Regional Chief Shane Gottfriedson and members of the First Nations Leadership Council then presented Melanie and her mother with gifts as well to commemorate her achievements as a First Nations woman.

March 16th was a historic day for the Nisga'a Nation as Grand Chief Edward John acknowledged the Nisga'a Nation for their leadership in advancing Aboriginal rights and title in British Columbia and Canada in the historic 1973 Calder Case. Grand Chief John went on further to apologize to the Nisga'a Nation on behalf of First Nations political leaders of the day who did not provide their political support to the Nisga'a Nation in the Calder Case.

It was a long-anticipated and welcomed apology for President H. Mitchell Stevens, all members of Wilp Si'ayuukhl Nisga'a (WSN) and simgigat and sigidimhaanak' present who stood before Grand Chief Ed John, Regional Chief Shane Gottfriedson and other members of the First Nations Leadership Council to acknowledge the apology. In an emotional address, President Stevens mentioned that all of the Nisga'a leaders who advanced the Calder Case have long gone on to the spirit world and as descendants of those ancestors, they accepted the apology on their behalf.

The day also included a memorable lunch hour Keynote Address from First Nations actor Duane Howard whose most recent work include Oscar winning film 'The Revenant' with Leonardo DiCaprio.

Many hands of the Nisga'a Nation contributed to the wonderful success of hosting this high profile event on Nisga'a Lands. Si'aamhl wilsim'!

FOR IMMEDIATE RELEASE

This bulletin is to explain to our customers the changes to our billing practices, and the future plans of Lisims Communications.

1. BILLING

Invoicing

Lisims Communications has moved to an automated billing system for our residential customers. In short, you will receive your bills via email on the 1st of every month. These bills have your internet usage, and current charges on them. These invoices are emailed to the email address we have on file for you. To view the invoice, you need to have adobe reader installed on your computer or some other piece of software that will allow you to view a .pdf file.

You will have 30 days to pay the invoice plus a 10 day grace period. You will receive a warning email once you have entered your grace period. Once the 10 day grace period has expired, your internet service will be suspended until payment is made. The current charges for internet are as follows:

New Aiyansh, Gitwinksilkw and Laxgalts'ap: \$95.20 per month. This is 80\$ for unlimited internet usage + 5\$ for rental of the radio + taxes.

Gingolx: \$78.20 per month. This is 65\$ for unlimited internet usage + 5\$ for rental of the radio + taxes. Gingolx is getting a discount as that community has not yet been linked to the fibre optic network and still utilizes a 45meg microwave link. Once the fibre is connected,

the price will then be the same as the other communities.

Payment

You can pay your bill at your bank by searching for Lisims Communications, and adding that as a payee. Your account number is on your invoice. Please be advised that online banking payments take time to get processed. If you pay via online banking, please send us your online banking payment confirmation number to support@npvlp.ca after payment is made. We will note your payment. It may take up to a week to update your payment as each banking institution takes time to report.

Alternatively, you can log onto the customer portal at <https://lisimscommunications.net> (even if you are suspended) with your portal credentials to pay your bill, view your invoices, check your speed and update some of your personal details. If you do not have your login credentials, please contact us and we will create one for you and send you a link to set the password or you can contact us at our office for assistance to do so.

Once in the portal, you can add payment methods. The payment methods supported are Visa (including Visa Debit cards), MasterCard, American Express, and Discover. You can select 'Auto' which can automatically charge your card for the service on the 1st of every month. Using this way to pay your bill, your account is updated automatically with the payment. If you are suspended, making a payment using the portal will turn your internet on automatically when payment is received.

2. FUTURE UPGRADES

Current Internet Bandwidth

We are planning to increase the capacity of our residential internet backbone as we are experiencing network congestion problems at this time. We are utilizing a 100 Meg circuit for 3 villages: New Aiyansh, Gitwinksihlkw and Laxgalts'ap for approximately 240 customers. Gingolx, with 60 customers, continues to utilize a 45 Meg microwave link for their internet. We are planning for a 400meg upgrade to this backbone. As well, we will be moving the commercial entities to their own circuits so that the 400 Meg backbone will be used exclusively by our residential customers. We anticipate the increased speed in the next couple of weeks once the order has been placed.

We are currently moving our equipment into our Central Switching Offices or CO's. This involves removing the fibre cabinets and fibre switches and other ISP equipment. Currently, this has been accomplished in New Aiyansh, Gitwinksihlkw and is now occurring in Laxgalts'ap.

Cable Internet Rollout

Canuma Cable installed the equipment used in the rollout of cable internet. This equipment was placed in our fibre trailers. Once all the fibre cutovers are completed and these cable 'head ends' are connected to our residential internet

circuit, we will be able to start rolling out cable internet to the homes.

3. FIBRE RUN TO GINGOLX

The process to get the fibre optic infrastructure into Gingolx continues. We have now been authorized to hang fibre onto the poles going down river to Gingolx. We anticipate that this project will be completed by the end of summer, barring and delays that may occur. You will soon see Telus and Graydon trucks on the side of the road building this fibre run.

4. CELL SERVICE

We are working with cell phone suppliers to offer cell service for the Nass Valley. While this process takes time, we are confident that we will have cell service in the Nass Valley by the end of the year or sooner.

I'd like to take this opportunity to thank you for your continued patience and loyalty during these changes and upgrades. Lisims Communications is committed to providing the best internet and services in the Pacific North West.

Respectfully,

Andre Cardinal
