## President's Message /////

### Oolichan, Health, Natural Resources

**GOOD NEWS!** By our efforts and our Treaty, we have ensured that the Nass River Oolichans have NOT been declared an endangered species by the federal Committee on the Status of Endangered Wildlife in Canada (COSEWIC) which makes these designations. Had this occurred, COSEWIC could have attempted to severely limit our access to our historic fishery. Through our own fishery department studies and lobbying efforts, we clearly demonstrated that the Nass oolichan were not in need of such designation. My thanks to our staff and advisors who worked to ensure this result.

Preparations are underway to begin negotiations for our next Fiscal Financing Agreement (FFA). The FFA ensures that Nisga'a Nation receives transfer payments from the federal and provincial government to provide agreed-upon services to us. As a reminder, I ask that all departments, Nisga'a Village Governments and Nisga'a Urban Locals assist our Chief Financial Officer Brian Fitzpatrick by ensuring he has all the information he requires to carry out the important task of getting us ready for the fall. We need this info to be successful at the fiscal negotiations table.

### Nisga'a Day

May 11, 2013 marked the 13th anniversary since the effective date of the Nisga'a Final Agreement (the "Nisga'a Treaty"). To commemorate the special occasion, Nisga'a citizens converged at Nisga'a Lisims Government for an open house on Friday May 10, 2013.

Emphasizing the importance of Nisga'a youth and their role as future leaders of the Nisga'a Nation, President

### 100th Anniversary of the 1913 Petition

In Gitlaxt'aamiks Nisga'a Nation President H. Mitchell Stevens and the Nisga'a Nation commemorated the 100th anniversary of the famous 1913 Petition. "May 21, 1913 was the date that the Nisga'a Land Committee formally lodged the Petition to His Majesty's Privy Council in London, England in which they asserted their Aboriginal rights and ownership of our traditional territory," explained Stevens.

Health is an important subject matter that has already been agreed to under the FFA which includes funding for the provision of health services and payment of health premiums. Since funding has already been covered under the FFA, the federal government cannot unilaterally make any changes to these mechanisms. So while there has been a lot of discussion about the newly established BC First Nations Health Council 'taking over' administration of health funding, it is our firm position that our interests and funding remain unaffected by any such new organization. We fought hard to have these services recognized under our FFA so we would have control over areas such as health and education. Therefore, we will not permit any changes to our existing funding mechanisms or levels without a fight.

We are pleased and optimistic with the approach by the new federal Minister of Aboriginal Affairs and Northern Development, Bernard Valcourt, who appears to be listening to the nations. He has already met with Nisga'a Nation at the Land Claims Agreement Coalition

conference, and after hearing our collective concerns, taken steps to amend the proposed federal *Clean Water Act* to remove some of its provisions which negatively impact modern-day treaty groups such as Nisga'a Nation. So we are hopeful that we can continue to build effective relations with Canada through the new minister.

Finally, I want to say to the Nisga'a citizens of all the Nisga'a Villages, we have heard your elected representatives on the matter of natural resource development in the Nass Area and responded. Each of the four Nisga'a Village Governments (NVG) has now been assigned direct responsibility to engage proponents wishing to pursue natural resource developments in the Nass Area. Each NVG will be responsible to host public sessions in each of the four Villages. This will ensure NVG are involved and allocate some of the workload in engaging proponents.

**Nisga'a Day...** / continued from page 1

Stevens and the NLG Executive Officers welcomed NESS secondary students from grades 9–12 to a formal meet and greet. Due to prior commitments, President Stevens was unable to participate in person, but did take the time to produce a podcast for the students to give them a warm welcome and Happy Nisga'a Day greetings. "Our Treaty is providing us with enormous opportunities to participate in developments taking place in the north", explained Stevens. "You have a prosperous future ahead of you if you work hard now to make yourself ready for it." Check out the video at [www.nisgaanation.ca](http://www.nisgaanation.ca).

Executive Chairperson Kevin McKay, Secretary-Treasurer Corinne McKay and Chairperson of the Council of Elders Shirley Morven each welcomed the students and provided them with a comprehensive presentation on the history of the Nisga'a Treaty and an overview of their respective roles in Nisga'a government.

Following a lunch shared with the NESS students, the afternoon was then open to the general public. Several hundred Nisga'a citizens were in and out of the NLG building throughout the course of the afternoon and were engaged in discussions with NLG Executive Officers and staff. Door prizes were generously distributed, including

a trip for two donated by NLG, won by Gitlax't'aamiks resident Chantelle Elliott!

Nisga'a Day celebrations also included the official launch of the new Nisga'a Lisims Government website [www.nisgaanation.ca](http://www.nisgaanation.ca). Enormous in size, the new site is the one-stop-shop for information on all things Nisga'a – including governance and services, language and culture and other economic and employment opportunities within the Nisga'a Nation.

In addition to the celebration of the 13th anniversary of the Treaty, the Nisga'a Nation also celebrates other significant milestones including; the 100th anniversary of the famous 1913 Petition lodged by the Nisga'a Land Committee; the 40th anniversary of the landmark Calder Case and the 20th anniversary of the opening of Wilp Wilxo'oskwhl Nisga'a Institute (WWNI) – the Nisga'a Nation's own post-secondary institution.

Finally, during Nisga'a Day, we captured video footage of Nisga'a citizens and encouraged them to wish their friends, families and Nisga'a Nation a happy Nisga'a day. Check it out, also on our website at [www.nisgaanation.ca](http://www.nisgaanation.ca).

While the 1913 Petition achieved little for the Nisga'a Nation with colonial governments in 1913, it is evidence that the Nisga'a assertion to have exclusively possessed, occupied and used and exercised sovereignty over Nisga'a traditional territory. This is the same area of land the Nisga'a received constitutionally protected rights to in the Nisga'a Final Agreement. "Our leaders (of the day) were astute enough to know that over time there would be evolution," concluded Stevens.

President Stevens went on to encourage Nisga'a youth and citizens to familiarize themselves with such major milestones as the 1913 Petition, stating "those historical milestones are what give us our mandate. It's important that we understand our history."

The Nisga'a Nation also commemorates a number of other significant milestone events from our history books including:

- 40 Years – 1973 Calder Decision in Supreme Court of Canada

MEMBERS OF THE LAND COMMITTEE OF THE NISGA TRIBE.  
Photograph taken at Aiyansh, Naas River, upon occasion of a meeting of the Tribe held there in October, 1913.

- 20 Years – 1993 Establishment of Wilp Wilxo'oskwhl Nisga'a Institute (WWNI)
- 13 Years – 2000 Effective Date of the Nisga'a Final Agreement

One of the intentions of this event is to explore fundraising to host a similar future workshop, in Gitlaxt'aamiks.

# Laxgalts'ap / Empowering community opportunity

Laxgalts'ap Village Government is working hard to empower its people to prepare for upcoming opportunities – and is achieving great success. We recently had a visit from the administrator for Laxgalts'ap, Andrew Robinson. We are grateful Andrew took the time to share information about these initiatives to improve the quality of life of Nisga'a citizens in Laxgalts'ap.

Laxgalts'ap has been offering an interdisciplinary training program to assist its young people work towards completion of grade 12 and moving beyond to post-secondary education. Of the 20 participants to this program, 15 are planning to continue on and are applying to the village for post-secondary training – a success rate of 75%. Most of these grads were approved for post-secondary assistance.

In addition to preparing learners for education, several have enrolled in further training to become cooks and certified chefs. Nine students applied to Northwest Community College (NWCC) cooks training program where they are learning to prepare meals for large groups of people. 95% of these students have confirmed they will continue with further cooks training in Terrace. These training initiatives have been so successful, they are now being offered to adults to get them properly certified for mining, oil and gas, tourism, and business and government program.

Wilp Wilxo'oskwhl Nisga'a has also been involved in providing a nurses training program. A total of five students have graduated from this program to become licensed practicing nurses, one of whom is from Laxgalts'ap, and two from Gitlaxt'aamiks. Congratulations to them for completing, it will benefit our elders to have our own certified people – congratulations to all our grads who are moving forward!

As well, Laxgalts'ap has enrolled students in a heavy equipment operators training course, and there appears

to be interest from other members set to start mid-June. This program will train individuals who want to operate loaders, graders, dozers and reticulating dump trucks. This program will be run with NWCC. Once completed successfully, this program will certify people to work in mines, mine development, and mine creation – with necessary certification to be ticketed. Nass Area Enterprises continues to work with Laxgalts'ap in communicating potential employment and opportunities.

Laxgalts'ap administration is looking at improving overall well being of children and youth in elementary and high school by introducing a tutoring program to increase the grade 11 literacy and numeracy of all of its community members.

Tourism is also being explored to highlight local businesses, amenities and services. A sign will be erected in coming weeks, and we encourage all Nisga'a citizens to come on down and check it out. Laxgalts'ap is also operating a carving program – we encourage all carvers in the valley to visit the carving shed and inquire how to attain status as a visiting carver during the tourist season. The Village Government has also commissioned a call for artists. Further, the Village has cleaned up the community, taken down all derelict houses and will demolish the old Rec Centre to ensure public safety.

The community is continuing quarterly meetings with the public, and will bring forward the Village Emergency Preparedness Plan as a result of public discussions regarding public safety. About 120 citizens show up at each meeting.

This list is just a snapshot of what Laxgalts'ap is doing on behalf of its Nisga'a citizens. It's easy to see that the Village is poised to reap the benefits from these investments in its future. Check out our new website:

# NLG Website

In this issue of the newsletter President H. Mitchell Stevens commemorates the 100th anniversary of the 1913 Petition. There has probably been no more talked about petition in the history of Canadian Aboriginal politics. Our new website was designed to allow viewers to easily access information like the 1913 petition and related information.

On the main navigation bar on the home page of [www.nisgaanation.ca](http://www.nisgaanation.ca) go to "Culture" then choose "History of Land Question" [www.nisgaanation.ca/history-land-question](http://www.nisgaanation.ca/history-land-question) to read a distilled backgrounder on the evolution of the Nisga'a "Land Question" as it relates to the 1913 Petition.

For a more detailed journey on our ancestors struggle to achieve the first "Modern Day" treaty in BC, go to "Timeline" [www.nisgaanation.ca/timeline](http://www.nisgaanation.ca/timeline) for a descriptive read of important moments from the year 1887 to 2010. As Nisga'a Government continues to evolve, we will most surely add more important milestones and dates beyond 2010 to the timeline. Our website has also been designed to evolve, grow, and adapt in the same way.

With any new website, there is a period of ironing out things to make sure all the technical elements work well. Over the next while we are fine tuning and adjusting elements on the site to ensure everything is working as it was intended.

Opinions vary as to the degree of stability in global markets. In Europe, financial uncertainty is still a concern. NLG actively reviews the Trust's longterm investment strategy to ensure the Trust is still in a position to meet its long-term objective — to secure long term gains.
