
Special Update!

The Nisga'a Lisims Government Executive has approved the advancement and construction of a 36-unit Nisga'a Assisted Living & Campus of Care Project, with an estimated budget of \$43.5 million. This project, partially funded by federal contributions, aims to alleviate suffering for those requiring long-term care while enhancing the quality of life for individuals wishing to age in place on Nisga'a lands.

The facility will be located at 275 Gosnell Place in the Nisga'a Village of New Aiyansh. It will offer support, space, and programming for an Adult Day Centre, Assisted Living Units, Long-Term/Complex Care Units, and Palliative/End-of-Life Care. This exciting development for the Nisga'a Nation will provide much-needed regional and local support services to Nisga'a families and individuals.

With assistance from M'akola Development Services, the project's design team is actively advancing work through NLG's Capital Finance Commission (CFC). We will continue to provide regular updates on the progress of this vital initiative.
