ENTRY LEVEL PIPELINE WORKER

10-DAY TRAINING PROGRAM

BUILT FOR ENTRY-LEVEL PIPELINE WORKERS. PREPARED FOR REAL-WORLD WORK.

This 10-day program delivers the essential safety and job-readiness training needed to work on pipeline projects with confidence, meet employer requirements, and stay compliant in the field.

PARTICIPANTS WILL BUILD SKILLS IN:

- Hazard recognition & risk management
- Pipeline construction safety
- Environmental & wildlife awareness
- Regulations, permits & safe excavation
- First aid, H2S & emergency response
- Safe power saw operation
- Traffic control & work zone safety
- Safe food handling

BE READY WHEN IT MATTERS.

DATE	March 1 – March 12 (excluding weekends)
LOCATION	TBD
SIGN UP	Roberta Percival Intake Coordinator NESTadmin@nisgaanation.ca

IRWIN'S INDUSTRIAL SERVICES

ESSENTIAL TRAINING. INDUSTRY-READY WORKERS.

BASIC FIRST AID
Workplace certification covering CPR, AED use, and care for common injuries until help arrives.

POWER SAW OPERATOR
Hands-on training to safely operate and maintain a power saw, including bucking and limbing.

WHMIS
Identify hazardous products and understand labels and safety data sheets in Canadian workplaces.

WILDERNESS AWARENESS (INCLUDING BEAR AWARE)
Stay safe in remote areas: bear behaviour, food storage, and wilderness hazards.

PIPELINE CONSTRUCTION SAFETY TRAINING (PCST)
Hazard recognition, safe work practices, and emergency response on pipeline sites.

GROUND DISTURBANCE LEVEL II (201)
Safe excavation, utility locates, and permits to protect workers and buried infrastructure.

H_2S ALIVE
Detect and protect against hydrogen sulphide (H2S), including protective equipment and rescue.

TRAFFIC CONTROL PERSON (TCP)
Direct traffic safely around work zones using signs, paddles, and proper positioning.

FOODSAFE LEVEL 1
BC's food handler certification for safe food storage, preparation, and hygiene.

WHAT YOU'LL GAIN:

- Industry-recognized certifications
- Job-ready skills for pipeline projects
- Confidence to work safely in remote environments
- Better employability and career opportunities
- A strong foundation in safety, compliance & teamwork

TRAINED PEOPLE. SAFE PROJECTS. STRONGER COMMUNITIES.

PROGRAM BENEFITS

INDUSTRY STANDARD TRAINING
Meets employer and regulatory requirements for pipeline projects.

HANDS-ON & PRACTICAL
Real-world training that applies directly on the job.

COMMUNITY FOCUSED
Building local workforce capacity and supporting First Nation partnerships.

CAREER OPPORTUNITIES
Gain the certifications and skills needed to get on-site and advance in the pipeline industry.
